SUMMARY

Tanzania is considered to be the best safari destination on earth. The country is home to the iconic **Serengeti National Park** and acclaimed Ngorongoro Conservation Area – both of which are UNESCO World Heritage Sites.

More than 25% of Tanzania's land is devoted to national parks, game reserves and conservation areas – the highest of any African country.

OUR GUIDES

Staffed by professional guides who have intimate knowledge of the parks, our safaris bring you up close and personal with Tanzania's wildlife. Our guides know where to find animals through experience or through communication with a network of other guides. They can regularly spot hidden animals from great distances, often before guests notice anything at all.

OUR VEHICLES

We have a fleet of well-maintained, four-wheel-drive safari vehicles. Our Toyota Land Cruisers, the standard for safaris in Africa, can seat from four to seven passengers depending on the size of the vehicle. Each comes with a custom pop-up roof allowing for an unobstructed game viewing experience.

ARE SAFARIS **DANGEROUS**?

Wild animals are accustomed to the presence of safari vehicles. Visitors are generally viewed as benign and are ignored. Always remain inside the vehicle and follow your guide's instructions.

A DAY ON SAFARI

Game drives define the safari experience.

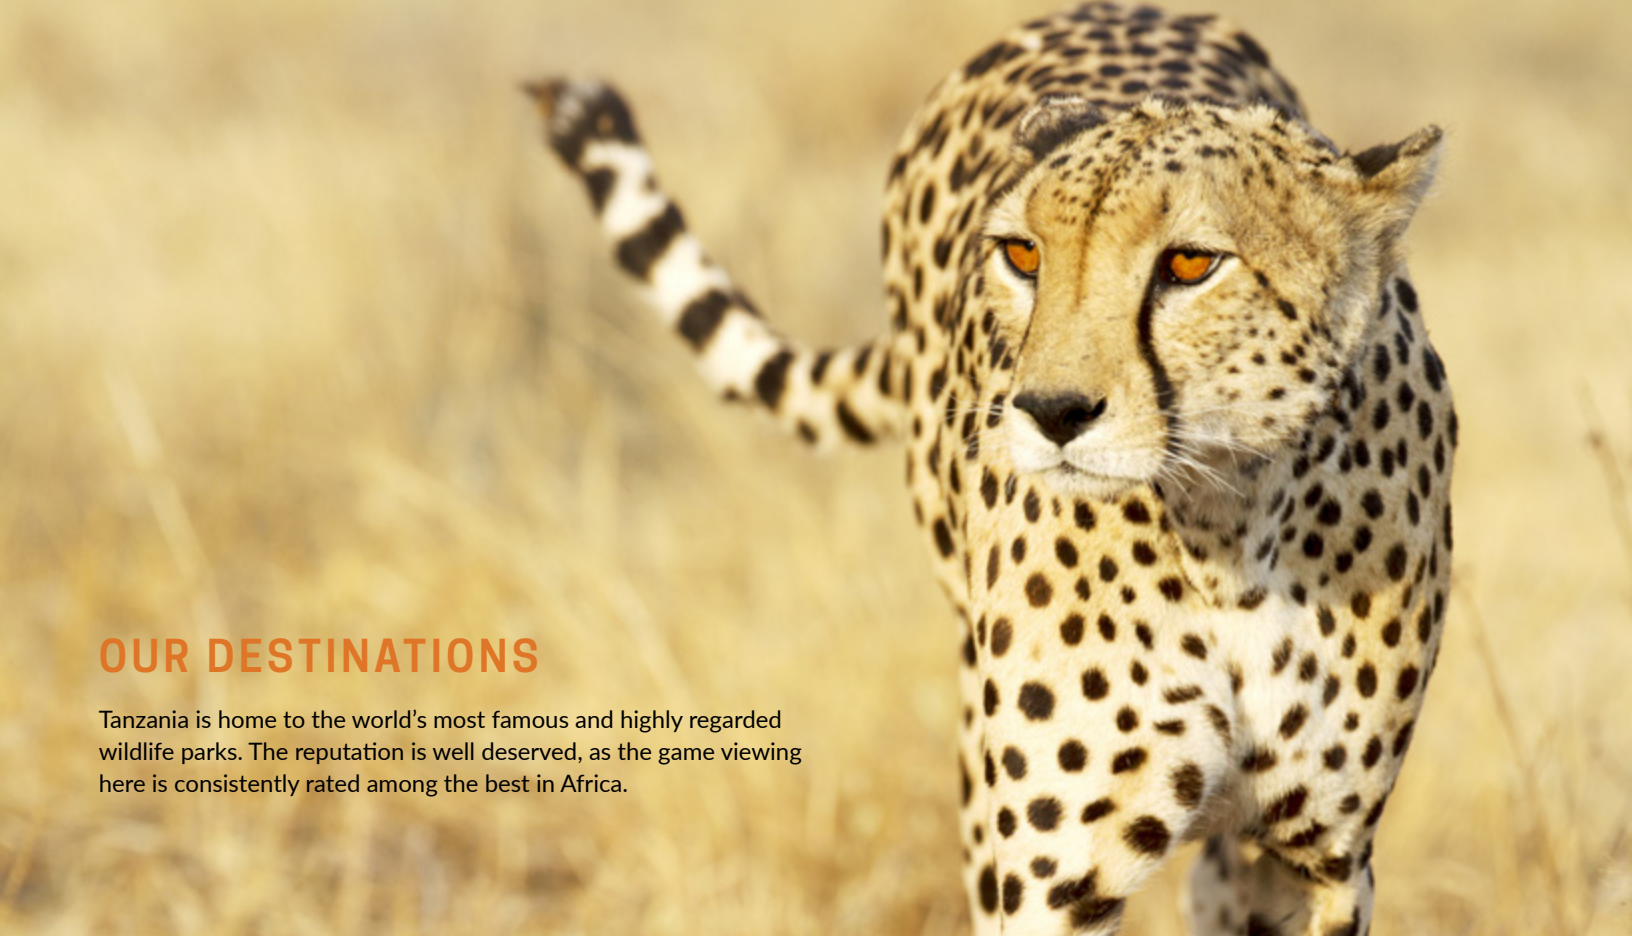

You'll travel slowly through the parks to locate and observe animals in their natural habitat. Because wildlife follows its own schedule, no two game drives are ever the same. Every outing offers the chance to see something new. You decide which animals interest you and how long you'd like to spend at each sighting.

Each day begins with breakfast at your lodge or tented camp before heading out into the bush. Between game drives, you'll travel through changing landscapes and enjoy hot picnic lunches in scenic locations. Before sunset, you'll arrive at your next lodge where you can relax before dinner.

Safari days are relaxed and unhurried, with plenty of time to simply take in your surroundings.

OUR DESTINATIONS

Tanzania is home to the world's most famous and highly regarded wildlife parks. The reputation is well deserved, as the game viewing here is consistently rated among the best in Africa.

excellent good fair

ARUSHA NATIONAL PARK

Though relatively small, Arusha National Park contains an impressive range of landscapes, including rainforest, acacia woodland, crater lakes, and Ngurdoto Crater. The park is known for its black-and-white colobus monkeys, giraffes, buffalo, and abundant birdlife. On clear days, visitors can enjoy views of both Mount Kilimanjaro and Mount Meru.

Best months to go:

JAN FEB MAR APR MAY JUN JUL AUG SEP OCT NOV DEC

LAKE MANYARA NATIONAL PARK

Lake Manyara National Park lies beneath the dramatic escarpment of the Great Rift Valley. The park is known for its diverse habitats, large elephant and buffalo populations, abundant birdlife, and its famous tree-climbing lions. Hippos, giraffes, monkeys, and baboons are also commonly seen.

Best months to go:

JAN FEB MAR APR MAY JUN JUL AUG SEP OCT NOV DEC

NGORONGORO CRATER

Ngorongoro Crater is the world's largest intact volcanic caldera, spanning 12 miles (19 km) across and surrounded by steep, unbroken walls. Nearly 30,000 animals inhabit its grasslands, forests, and watering holes, including lions, elephants, buffalo, zebra, wildebeest, and hyenas. A small population of endangered black rhinoceros also lives within the crater.

Best months to go:

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

SERENGETI NATIONAL PARK

Serengeti National Park is Tanzania's largest national park and the best-known wildlife sanctuary in the world. More than three million large animals inhabit the Serengeti, including nearly 1.5 million wildebeest that take part in the Great Migration. Lions, leopards, elephants, buffalo, zebra, and many other species are found throughout the park.

Best months to go:

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

OLDUVAI GORGE

Known as the "Cradle of Mankind," Olduvai Gorge is one of the world's most important archaeological sites. Excavations by Louis and Mary Leakey uncovered early human remains, fossils, and stone tools dating back nearly two million years. Located between Ngorongoro Crater and the Serengeti, it offers a fascinating look into the origins of humankind.

Best months to go:

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

TARANGIRE NATIONAL PARK

Tarangire National Park is home to Tanzania's largest population of African elephants. During the dry season, wildlife gathers in large numbers around the Tarangire River, the park's primary permanent water source. Enormous baobab trees dominate the landscape, giving Tarangire one of Tanzania's most distinctive safari settings.

Best months to go:

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

OUR ACCOMMODATIONS

Our standard accommodations consist of lodges and permanent tented camps. They are strategically located in the center of Serengeti National Park and in the town of Karatu, an ideal base for excursions into Lake Manyara, Ngorongoro Crater, and Tarangire.

STANDARD LODGES

Our standard lodges feature comfortable rooms with beds, private bathrooms, and hot showers. Breakfast, lunch, and dinner are served in a communal dining hall. Wi-Fi and laundry services are also available.

PERMANENT TENTED CAMPS

Permanent tented camps feature spacious canvas tents set on solid foundations. Each has beds, a private bathroom with a flush toilet and hot shower, electricity, Wi-Fi, and a covered porch. Meals are served in a separate dining tent.

LUXURY LODGES

For guests seeking upgraded accommodations, we offer luxury lodges featuring premium rooms, excellent dining, extensive amenities, and some of Tanzania's most scenic locations.

THE BIG FIVE

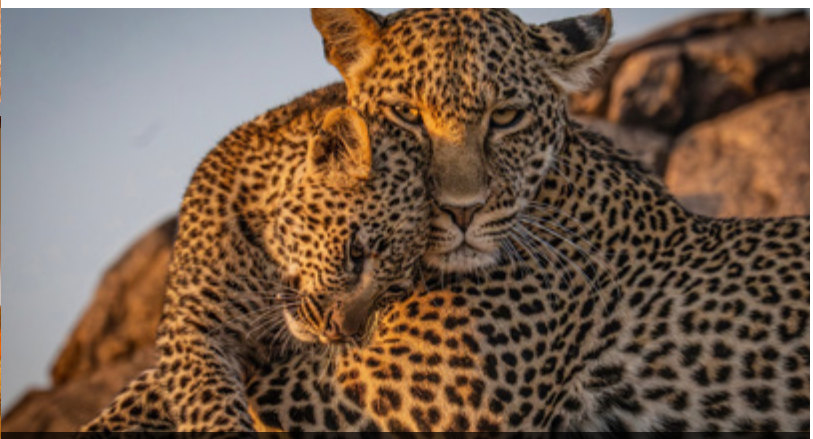

The “Big Five” is a classic safari term that refers to five of Africa’s most iconic animals: lion, leopard, elephant, rhinoceros, and buffalo.

The term originally came from early big-game hunting, where these animals were considered the most difficult and dangerous to track on foot. Today, it represents the most sought-after wildlife sightings on safari.

LION

Large social cats that live in groups called prides. Lions spend much of the day resting and become more active in cooler hours.

LEOPARD

Elusive and mostly solitary, skilled climbers often seen resting in trees.

ELEPHANT

The largest land animal, known for intelligence, strong family bonds, and complex social behavior.

RHINOCEROS

Massive, thick-skinned animals with distinctive horns.

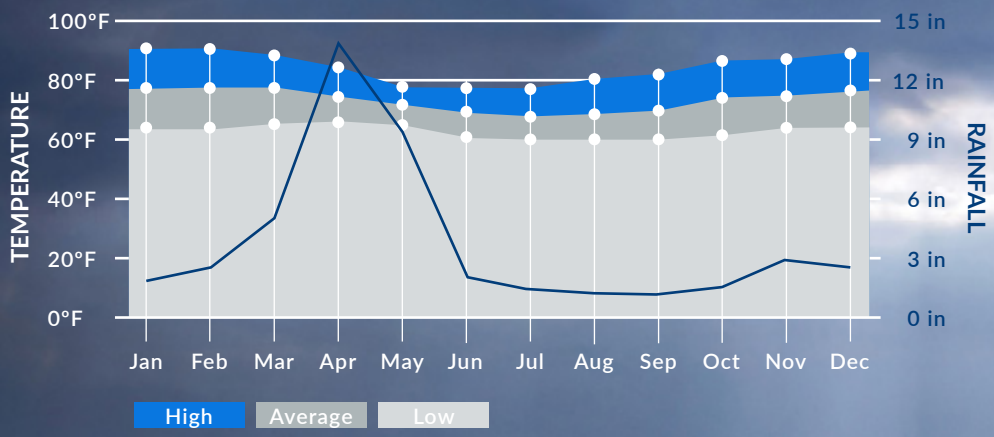

BUFFALO

Strong herd animals often found near water and grasslands.

WHEN TO VISIT

Our safaris are offered year-round. Wildlife movements change seasonally based primarily on the availability of food and water, so viewing conditions vary between parks throughout the year. However, we encourage you to visit as many parks as possible. Our clients thoroughly enjoy their safari experience no matter when they come.

Temperatures and Rainfall in Moshi, Tanzania

GEAR LIST

Safari goers should not assume the weather is always sunny and warm. Temperatures can be quite cool at night, especially in the highlands. Be sure to pack clothing for wet days and chilly nights, along with the basics.

CLOTHING
waterproof jacket | soft jacket | long sleeve shirt | pants

HEADWEAR
brimmed hat | neck gaiter or dust mask

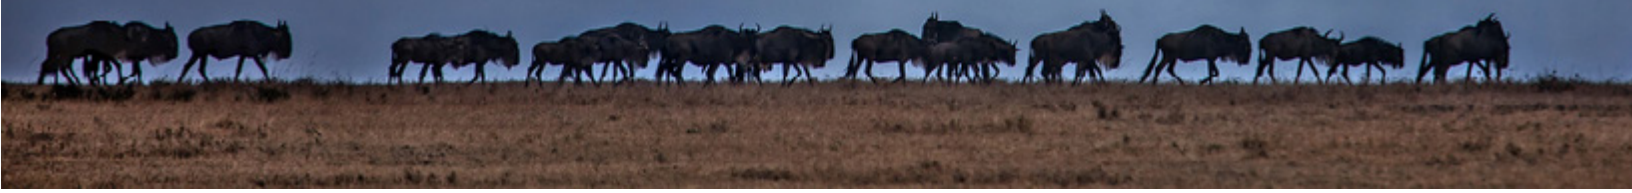

FOOTWEAR
walking shoes

ACCESSORIES
sunglasses | sunscreen | insect repellent | lip balm | small backpack | toiletries

EQUIPMENT
camera | universal plug adapter | headlamp or flashlight

OTHER
binoculars (optional) | bathing suit (optional)

Using one large duffel bag to carry your belongings is recommended as we will be changing accommodations nearly every day.

HOW MANY DAYS?

There is one simple rule: **the more time you spend on safari, the more you will see.**

Each additional day provides new opportunities for wildlife sightings while allowing for a more relaxed pace. You'll also have time to appreciate the scenery and unique character of each destination.

For most travelers, we recommend a five-day safari. This provides an ideal balance between visiting several of Tanzania's major parks, traveling between destinations, and spending time on game drives.

SAFARI ITINERARIES

Ultimate Kilimanjaro® Safaris offers private trips with itineraries from one to seven days. Choose the dates that work best for you.

SERENGETI **FROM THE SKY**

On our 5–7-day safaris, we offer an optional morning hot air balloon ride over the Serengeti. Watch the sun rise over the savanna while viewing the Serengeti and its wildlife from above.

1 DAY (ANP)

Day 1 | Drive to Arusha National Park for a game drive with picnic lunch. Return to Arusha.

2 DAYS (T, NC)

Day 1 | Drive to Tarangire for game drive with picnic lunch. Dinner and overnight.

AVERAGE RATING
VERIFIED REVIEWS

"We did a 4 day safari in Tanzania. Went to Tarangire, the Serengeti as well as the Ngorongoro crater. We saw all of the Big 5 as well as a host of other animals. The accommodations were all first-rate and the meals were excellent. We'll happily recommend this tour company to anyone planning such a trip.
